# A Classes: 2/3

## Classes / Items

BT

Search bar

A Joe Bien

Lizzy Bond

Billy Denny

00

Info

Adjustable Labels  
that can be edited

Similarly to Classes and Items, clicking on Student brings up the pop-up

clicking on Student brings up the pop-up

Classes / Items

Info / History

Same feature  
in BT

Name	John
Email	john@buttercup.com
Password	password
Change Password	<input type="button" value="Change"/>
Logout	<input type="button" value="Logout"/>
Users	<input type="button" value="Users"/>

Click on outside area to return to original page and tab

New Popup

Logout

Logs out everybody whose logged into this account

Brings up New Popup (Clicked on Classes prompt)

Are you sure you want to delete this account?

History Logs All Late Items

that were turned in by specific User. Only two messages are possible! One that says

the item name and the date which it was failed to be turned in. The second message states

if it was returned.

Note: If we decide on individual tabs, those should be included too

A Clicking on the "change password" button brings up a new popup

This change will be added to the group accounts if we don't

Entering wrong password causes the box to re-prompt

Used by inputting Date or item name

Deletes message after confirmation of prompt

You cannot undo this operation

Used by inputting Date or item name

Deletes message after confirmation of prompt

You cannot undo this operation

Used by inputting Date or item name

Info	Class / Item

Search bar

Info

# Classes 3/3

Contains all Admins

Note: Ideally, we use School accounts

**Class 1 Items**

Administrator 000

(Class of 2024000)

Can be dragged to be ahead of other classes. Same applies to students. However otherwise they're in alphabetical order. Can also drag Students to other classes.

Manually adds new Student or Class with Name prompt

Name of New Class: ex.

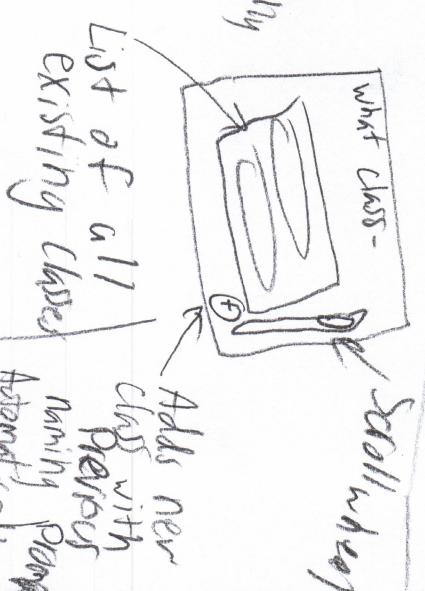

-Shifts into a cross when clicked

Pop up

Afterwards teacher/Admin decides what class they go into. Admins automatically go into administrator

Assumes Google Classroom Emails

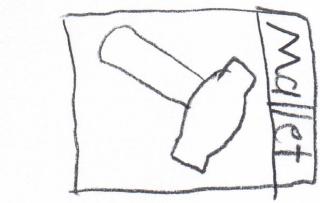

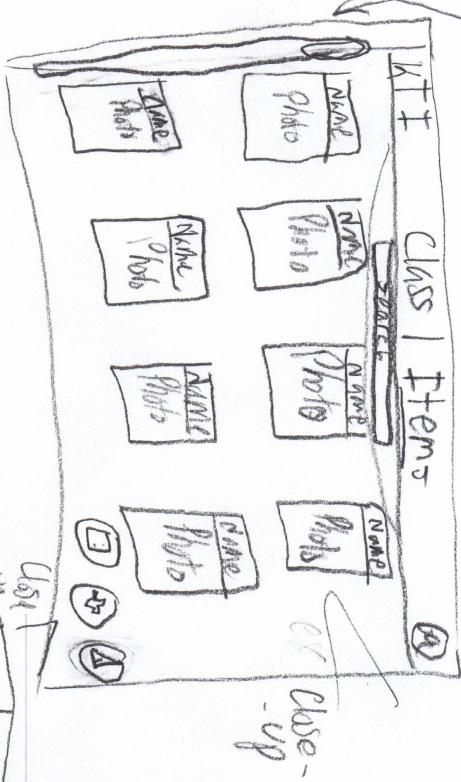

Adds new class with previous naming prompt automatically places student new into new class

When photo is chosen, it brings up a log-in of what image will be used. This prompt and button will be used, or just an alternative method of adding students

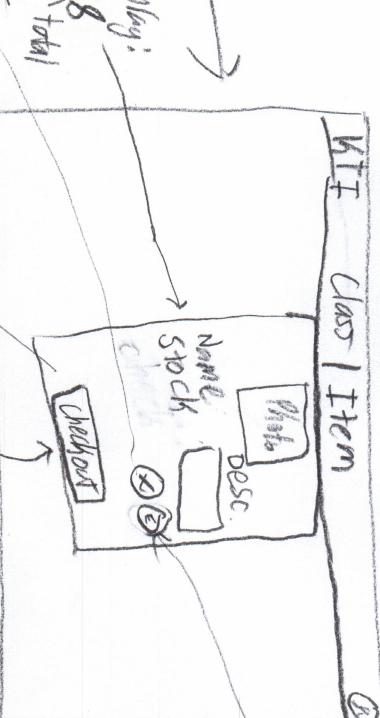

is used to determine which class otherwise this prompt and button will be used, or just an alternative method of adding students

# A-Items: 1/2

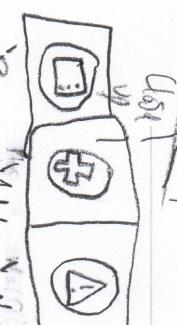

Still "in  
Stock/where"

Upon  
clicking...

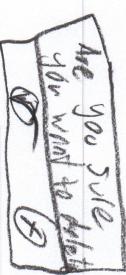

Allows  
for  
editing  
changes

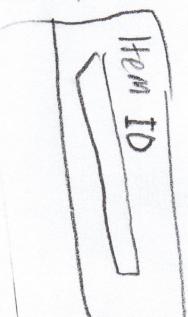

PopUp

Display:  
12/18 total

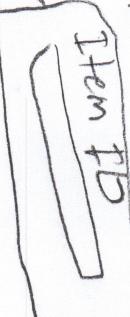

Upon  
clicking...

If item is already checked out, button swaps to → Return

PopUp  
for this

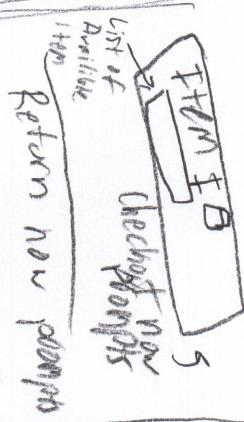

Hitting enter,  
submits answer

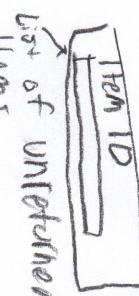

Additional notes: If we end up using individual items IDs, the following prompts are changed.

Note: both

Examples assume there's a code alongside the QR code for web users

Clicking Reverses a dropdown  
List of the available items via ID

A-Items: 2/2

HTI	Class Item	(1)
-----	------------	-----

Any large  
box  
is displayed  
as an example  
of what it'll  
look like  
in the photo

Image	Wardrobe Search Cancel	Print
Confirm		

HTI	Class Items	(1)
-----	-------------	-----

Images  
replaced

the last -  
should be re  
done

None 00 00	None 00 00	None 00 00
None 00 00	None 00 00	None 00 00
None 00 00	None 00 00	None 00 00

Mallet	(1) (2) (3)
--------	-------------

- Anybody who  
has this item  
checked out  
will have their  
profiles display  
over them when  
they hover over  
them

Right clicking  
will bring up  
a prompt to  
manually force the  
program  
into checking  
that item back  
in for that  
specific person

Search bar - will  
adjust list to

match name, if the

Page Button is toggled →

the items will update

to whoever has it checked

out, for example typing in

Search	Mallet
Lizzy	PO 00

After:

Lizzy

Joe is  
mallet  
of  
giving  
out

Point the box  
can't show them.  
The user can hover  
their mouse and  
scroll to reveal the  
other people

clicking brings  
their page  
up

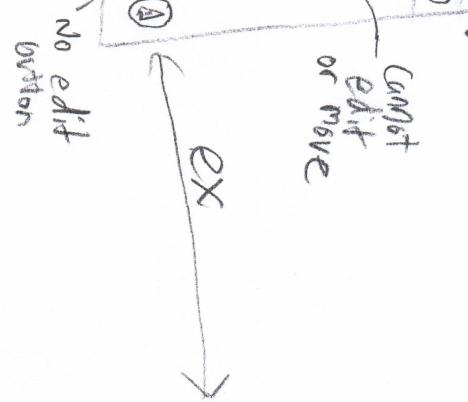

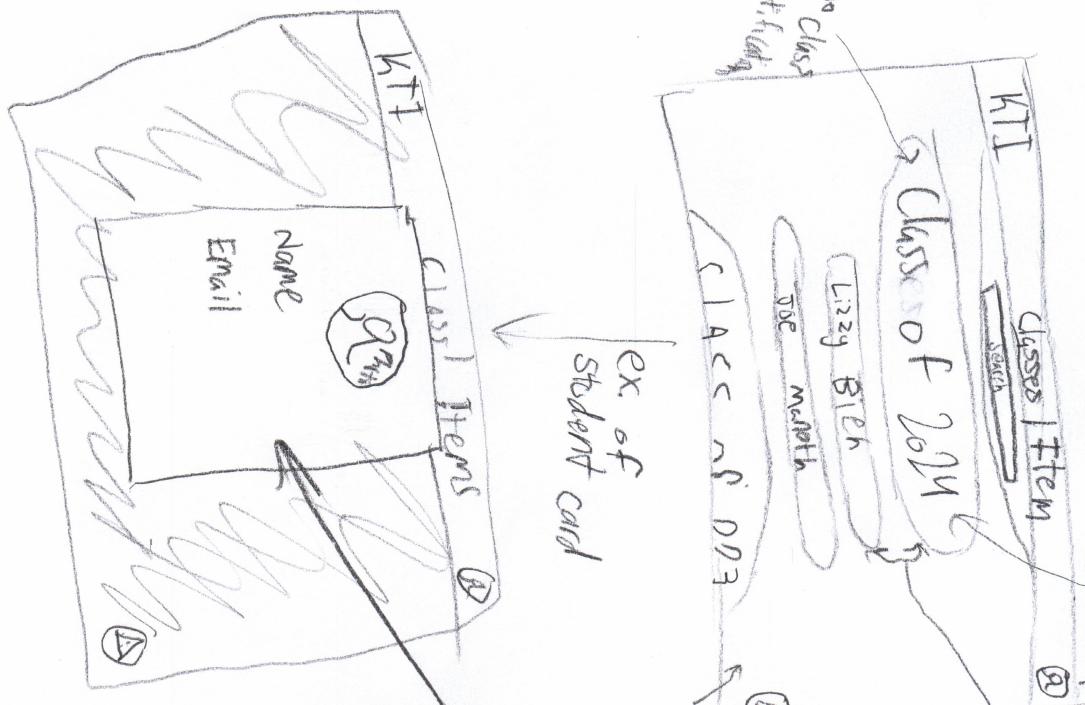

Return Home	Return Item
----------------	----------------

will bring up  
a prompt to  
manually force the  
program

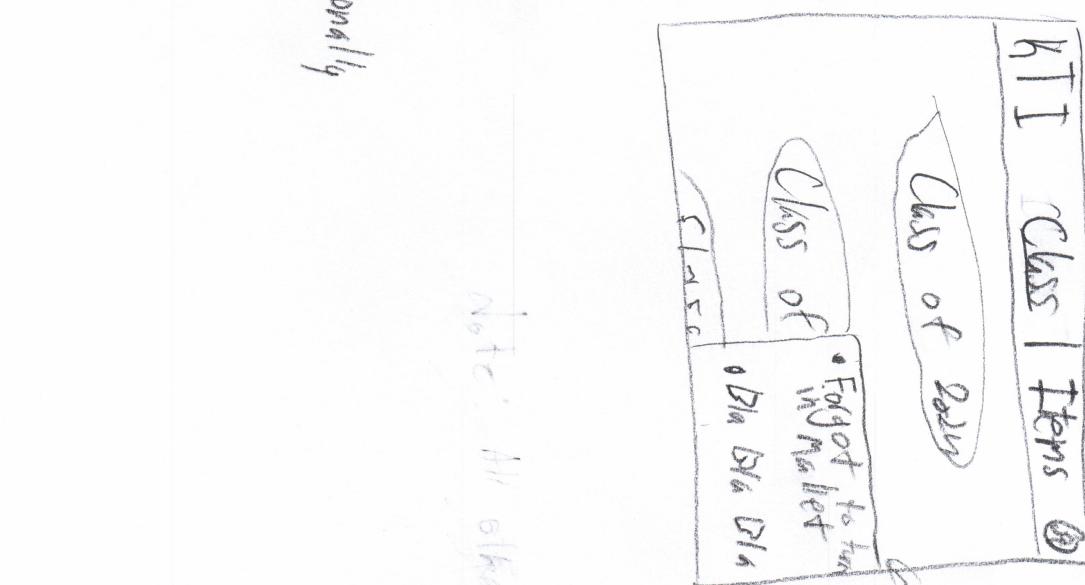

"Lizzy" will bring up the  
items anybody with that user  
has checked out alongside  
"giving out" anybody  
else who has that item  
checked out.

# S-Classes '11

Admin is displayed  
not

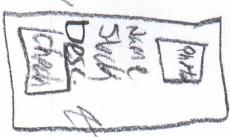

Only displays name, email, and profile picture.  
Otherwise functionally the same

Note: All other features
